Provisional Technical Data sheet

Product: Akyboard D14 3000 g/m² - 9.8 mm

Market: anti sliding floor protection for commercial vehicles

Upper Layer: Anti sliding structured Polypropylene (PP)

Lower Layer: Polypropylene copolymer

Property	Unit	Result	Method
Surface Weight	g/m²	3 000	Intern
Thickness	mm	9.8	Intern
Donaity	a /am³	0.31	Intown
Density	g/cm ³	0.31	Intern
Flexural Break resistance	N	250	ISO 178
(Distance between fulcrums: 100 mm, test			
speed 300 mm/mn, sample dimension:			
40*200 mm)			
et	21/	60	100 170
Flexural rigidity	N/mm	60	ISO 178
(Distance between fulcrums: 100 mm, test speed 5 mm/mn, sample dimension:			
40*200 mm)			
10 200 11111)			
Impact resistance by falling mass	Visual	Impact	Renault
(B: 4000g / 50 cm / 23°C)		visible	D421235/C
		No break	
T	\		5
Impact resistance by falling mass (W: 400g / 50 cm / -30°C)	Visual	No visual effect	Renault
(W. 400g / 30 cm / -30°C)		enect	D421235/C
Friction coefficient		About 0.4	Intern
Metal runner 50 x 100 mm weighted with 36N		7.5000	266
Flame propagation speed	mm/mn	< 100	FMVSS 302
Flat crush test	%	< 10	EN 23035
(deformation under punctual pressure			
of 1000 kPa)			
Humidity reaction	No effect
